EQUAL MEASURES 2030

If historic trends continue, the world won't achieve gender equality until 2108. How is Australia performing on gender equality in the SDGs?

The SDG Gender Index covers 144 countries, 98% of the world's girls and women, and 14 of 17 Sustainable Development Goals. It includes 56 indicators capturing gender-related measures across the 2030 Agenda.

Score by goal for 2015 and 2020

If current trends continue, a girl born this year will

not in her lifetime

see that all women in Australia have access to family planning

Best and worst performing indicators since 2015

Best

Extent to which a national budget is broken down by factors such as gender, age, income, or region

Proportion of ministerial/senior government positions held by women

Extent to which laws criminalise, protect or recognise sexual orientation and same-sex conducts

Worst

Extent to which the delegation representing the country at the COP meeting is gender balanced

Proportion of women (15+ years) who report they are satisfied with efforts to preserve the environment

Extent of freedom of association and collective bargaining rights in law

Scoring system

- Fast progress:** Increase by >3 points
- Some progress:** Increased by <3 points and >1 point
- No progress:** Less than +1 or -1 change in points
- Decline or Wrong direction:** Decline by more than -1 point
