

Burundi

Sub-Saharan Africa

If historic trends continue, the world won't achieve gender equality until 2108. How is Burundi performing on gender equality in the SDGs?

The SDG Gender Index covers 144 countries, 98% of the world's girls and women, and 14 of 17 Sustainable Development Goals. It includes 56 indicators capturing gender-related measures across the 2030 Agenda.

If current trends continue, a girl born this year will

be 10-19 years-old

before there are reasonable laws in Burundi to protect gender equality at work

Best and worst performing indicators since 2015

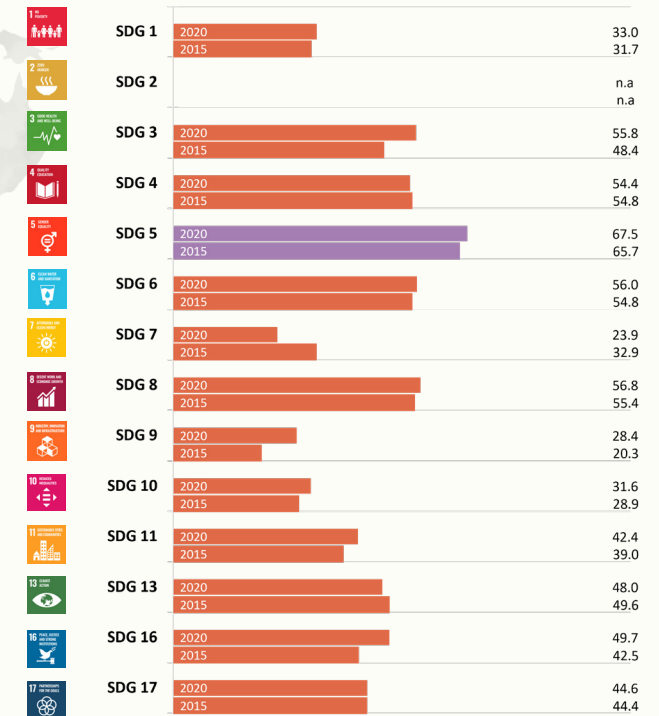

Best

- Proportion of women (15+ years) who report they are satisfied with the healthcare quality in their area
- Proportion of women (15+ years) who report they are satisfied with the quality of roads in city or area where they live
- Extent to which women can openly discuss political issues in private and in public spaces

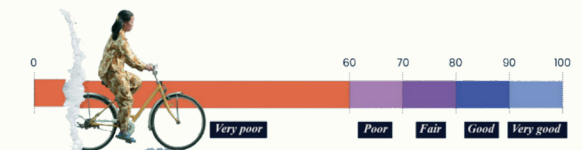

Worst

- Proportion of women (15+ years) who report they are satisfied with the quality of air where they live
- Extent to which the delegation representing the country at the COP meeting is gender balanced
- Proportion of women (15+ years) who report that, if in trouble, they have relatives or friends they can count on to help them whenever they need them

Score by goal for 2015 and 2020

Scoring system

- Fast progress:** Increase by >3 points
- Some progress:** Increased by <3 points and >1 point
- No progress:** Less than +1 or -1 change in points
- Decline or Wrong direction:** Decline by more than -1 point
