

France

Europe and North America

If historic trends continue, the world won't achieve gender equality until 2108. How is France performing on gender equality in the SDGs?

The SDG Gender Index covers 144 countries, 98% of the world's girls and women, and 14 of 17 Sustainable Development Goals. It includes 56 indicators capturing gender-related measures across the 2030 Agenda.

If current trends continue, a girl born this year will

be 10-19 years-old

before all women in France have access to at least some secondary education

Best and worst performing indicators since 2015

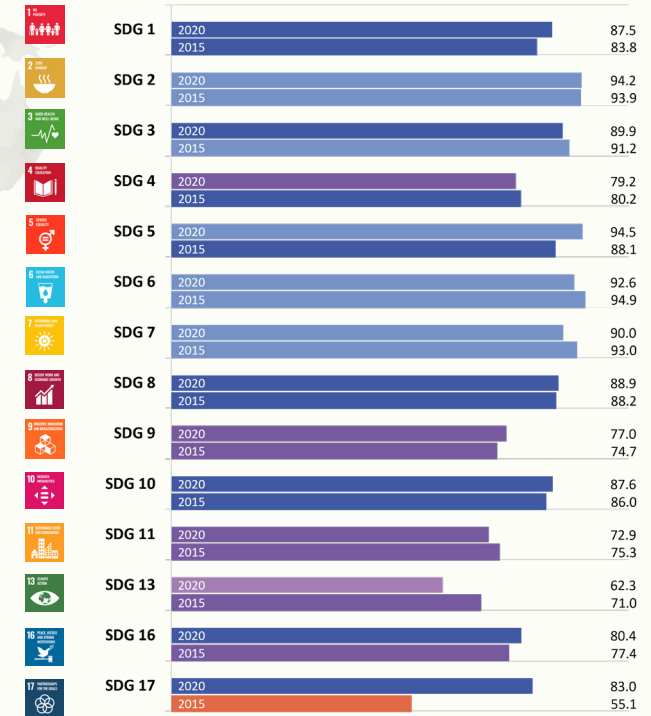

Best

- Extent to which a national budget is broken down by factors such as gender, age, income, or region
- Proportion of seats held by women in national parliaments
- Extent to which laws criminalise, protect or recognise sexual orientation and same-sex conducts

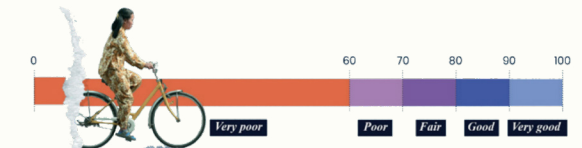

Worst

- Proportion of women (15+ years) who report they are satisfied with efforts to preserve the environment
- Proportion of women (15+ years) who report they are satisfied with public transport in their area
- Proportion of women (15+ years) who report they are satisfied with the quality of air where they live

Score by goal for 2015 and 2020

Scoring system

- Fast progress:** Increase by >3 points
- Some progress:** Increased by <3 points and >1 point
- No progress:** Less than +1 or -1 change in points
- Decline or Wrong direction:** Decline by more than -1 point
