

Spain

Europe and North America

If historic trends continue, the world won't achieve gender equality until 2108. How is Spain performing on gender equality in the SDGs?

The SDG Gender Index covers 144 countries, 98% of the world's girls and women, and 14 of 17 Sustainable Development Goals. It includes 56 indicators capturing gender-related measures across the 2030 Agenda.

If current trends continue, a girl born this year will

be in her sixties

before all women in Spain have access to family planning

Best and worst performing indicators since 2015

Best

- Proportion of ministerial/senior government positions held by women
- Extent to which a national budget is broken down by factors such as gender, age, income, or region
- Openness of statistics - Indicator coverage and disaggregation

Worst

- Proportion of women (15+ years) who report they are satisfied with efforts to preserve the environment
- Proportion of women who hold a bank account at a financial institution
- Proportion of women who have made or received digital payments in the past year

Score by goal for 2015 and 2020

Scoring system

- Fast progress:** Increase by >3 points
- Some progress:** Increased by <3 points and >1 point
- No progress:** Less than +1 or -1 change in points
- Decline or Wrong direction:** Decline by more than -1 point
