If historic trends continue, the world won't achieve gender equality until 2108. How is Zimbabwe performing on gender equality in the SDGs?

The SDG Gender Index covers 144 countries, 98% of the world's girls and women, and 14 of 17 Sustainable Development Goals. It includes 56 indicators capturing gender-related measures across the 2030 Agenda.

If current trends continue, a girl born this year will

be in her twenties

before all women in Zimbabwe have access to at least some secondary education
